about as authentic as it gets. Later, you'll

head for Denali National Park via a scenic motorcoach trip for your arrival at the first of your two destinations at Denali, the Denali Princess Wilderness Lodge.

Anchorage (Whittier), Alaska
Whittier, approximately 65 miles southeast of Anchorage, lies nestled at the base of the Chugach Mountains bordering Passage Canal. Established as a World War II port for cargo and troops of the Alaska command, Whittier remained activated until 1960. Today, Whittier's economy and its 290 residents rely largely on the fishing industry, the port and tourism. Once accessible only

by boat or via a war-era railway tunnel, the Anton Anderson Memorial Tunnel was recently enhanced to accommodate highway traffic as well, making it the longest highway/rail tunnel in North America at 2.5 miles. Named for the poet John Greenleaf Whittier, the community is also the gateway to spectacular Prince William Sound, with its magnificent tidewater glaciers and abundant marine life.

Hubbard Glacier (scenic cruising)

Nicknamed the "Galloping Glacier," the east Alaskan glacier is rapidly advancing toward the Gulf of Alaska into a pristine area known as Disenchantment Bay. In fact, its movement temporarily formed a natural dam that twice closed off nearby Russell Fjord from the bay, but the intense water pressure building within the fjord-turned-lake has thus far been enough to explode through the wall of ice. The largest tidewater glacier in North America, Hubbard Glacier measures 76 miles long and plunges 1,200 feet into the depths of the bay. Its immense beauty and phenomenal blue hues are enchanting, even from afar. It's when your ship draws closer that its towering surface really impresses, dwarfing even the

uppermost deck on you ship at a whopping 40 stories high. There, with the snowcapped mountains serving as a glorious backdrop, you'll have a prime viewing spot from which to witness the glacier calving, as it often expels icebergs the size of 10-story buildings...imagine the splash! The area around Hubbard Glacier is also renowned for its wildlife, where whales, harbor seals and otters swim, brown bears, moose and black-tailed deer roam ashore, and a wide variety of seabirds soar gracefully across the sky.

Skagway, Alaska

Skagway was the gateway to the gold fields for the thousands who flocked to Alaska and the Yukon with the hope of striking it rich. Skagway may have boasted the shortest route to the Klondike, but it wasn't the easiest. Over 100 years ago, the White Pass route

through the Coast

Mountains and

the shorter but steeper Chilkoot Trail were used by countless stampeders. Many a would-be miner perished on the treacherous Chilkoot Trail. The gold rush was a boon and by 1898, Skagway was Alaska's largest town with a population of about 20,000.

Hotels, saloon, dance halls and gambling houses prospered.

When the gold yield dwindled in 1900, so did the population as miners quickly shifted to new finds in Nome. Today, Skagway has less than 1,000 residents. It still retains the flavor of the gold rush era.

Juneau, Alaska

In 1880, it was slow going for Joe Juneau and Richard Harris as they searched for gold with the help of Native guides. After climbing mountains, forging streams and facing countless difficulties, they found nuggets "as large as beans." From their discovery came three of the largest gold mines in the world. By the end of World War II, more than \$150 million in gold had been mined. Eventually the mines closed, but the town Joe Juneau founded became the capital of Alaska and the business of gold was replaced by the business of government. Some 30,000 people live in Juneau. Its total area makes it one of the biggest towns, in size, in the world. Only Kiruna, Sweden and Sitka, Alaska, exceed Juneau's 3,248 square

miles. Today Juneau is famous not only for gold and government but also for its breathtakingly beautiful glaciers and stunning views of both water and mountains.

Ketchikan, Alaska

Ketchikan is known as Alaska's "First City" because it's the first major community travelers come to as they journey north. Located on an island, Ketchikan began life as an Indian fishing camp. The name Ketchikan comes from a Tlingit phrase that means "eagle with spread-out wings," a reference to a waterfall near town. In the early 1900s, when gold was Alaska's claim to fame, fishing and timber industries were established in Ketchikan. The growth of these industries helped make this Inside Passage port Alaska's fourth-largest city. Visitors to Ketchikan will be intrigued by its rich Native heritage, which includes the world's oldest collection of totem poles at Totem Heritage Center. The Haida, Tlingit and Tsimshian are all a part of the city's colorful history. Ketchikan, with its abundance of salmon, is also a sportfishing paradise. Sightseers will be impressed with both the scenic town and its surroundings, especially Misty Fjords National Monument.

Vancouver, British Columbia

It seems unlikely that a character named "Gassy Jack" Deighton would be responsible for one of the most beautiful cities on the continent. That's history for you. During the gold rush Gassy Jack saw a chance to make money from the hordes of miners on their way to the Yukon. The saloon he built became the focus of the shanty town known as Gastown. From that ragtag group of shacks, modern Vancouver was born. The provincial government persuaded settlers to change the name of the town to Vancouver, after Captain George Vancouver, who sailed the region's waters in 1792. Canada's third-largest city, Vancouver is a cosmopolitan place with a European feel and a personality all its own. It's a community with a rich ethnic mix - including the second-largest Chinatown in North America and stunningly beautiful parks.
